

# Sponsorship Prospectus

## About

ISAM was created to bring faculty, students, and industry leaders together in order to learn from each other and create the best higher education makerspaces possible.

As a sponsor, you would have direct access to 250+ attendees from universities across the globe. These faculty and students decide what to put in their makerspaces, potentially opening the door to having your products used by hundreds of curious makers every day.

## Logistics

October 18-20, 2023  
Pittsburgh, PA

Hosted by  
Carnegie Mellon University
